Message From Your President

I hope everyone is enjoying their summer!

Our Chapter hosted a Summer Social on July 10th at Miron Construction. It was great meeting new women from other companies and sharing our experiences. NAWIC is in organization for Professional, Education, Business, Employer and Investment Dollars & Sense opportunities. We have a great industry with a bunch of great women!!! We hope to see more of these women in the future! If you know anyone who wants to learn more about the organization you can find our national website at www.nawic.org.

August 7th is our second Workshop “Disagree, Agreeably”, presented by Michelle Gnida from Dale Carnegie. This workshop is free to members and $20.00 for non-members. The workshop will be held at Miron Construction. Please contact me if you are interested.

Our board is headed to Orlando for the National Conference where we will attend leadership and personal improvement workshops and find out what is trending in our industry. We are excited to come back re-energized to take on another year of leading our chapter.

If you know of any women in the construction Industry who would be interested in our organization, please have them contact me at alippe@climate-engr.com.

Sincerely,

Angela Lippe
President, Chapter 160

Climate Engineers has been providing Solutions in Air for businesses, factories & institutions since 1947. We are one of the few companies that not only designs and installs HVAC systems, but manufactures any type of sheet metal plate structure. From start to finish, you work with one company and one project team.

Helping buildings and employees perform to their fullest.

By modernizing the equipment and systems in buildings, improving energy and operating spend, and addressing ongoing maintenance needs, Johnson Controls creates healthier, more productive and safer environments for customers.

Delivering these outcomes is our diverse workforce. We’re committed to advancing women in the HVAC industry, investing in STEM programs that educate girls and empowering our female employees with our Women’s Resource Network business resource group.

Investing in our people. Delivering for our customers. That’s Building Efficiency.
